

## ASSEMBLY INSTRUCTIONS Shield Showcase

Use a spirit level to mark out a horizontal line on the wall 80mm below the desired height of the Shield Showcase, with the line length less than the width of the showcase.

1

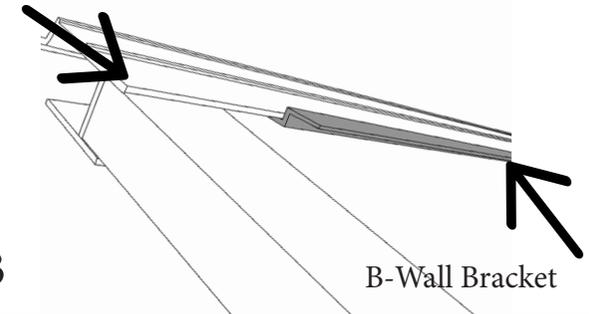

Attach the support bracket centrally with the base of the bracket on the line.

2

Hook the frame of the showcase onto the bracket (which you already mounted to the wall) and slide to its desired position.

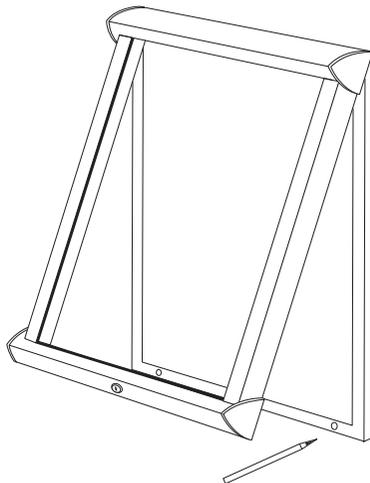

Frame of the showcase

3

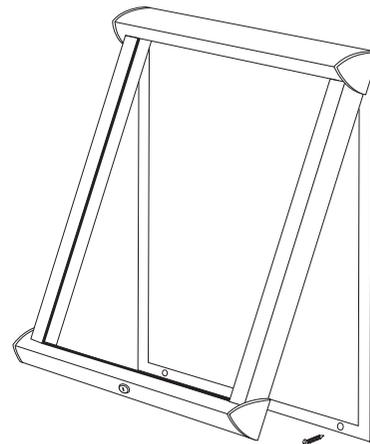

B-Wall Bracket

Open the cover and mark the wall through the fixing holes in the base of the internal frame. Then unhook the showcase and drill and plug the wall.

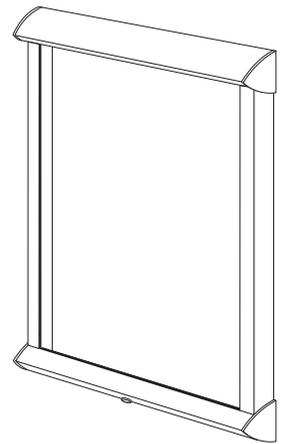

7

Reposition the showcase and fix to the wall through the fixing holes.

8

Close the door and lock to secure.  
Your Shield Showcase is now ready for use.
